

RCRDP A-696

Program Cropland Water Savings

Lead Implementer Idaho Soil and Water Conservation Commission

Funders Idaho Soil and Water Conservation Commission, Private Party

Other Organizations Balanced Rock Conservation District

Project Primary Contact Corrine Dalzell (corrine.dalzell@swc.idaho.gov)

Project Stage Completed
Duration 2015

Agricultural Projects & Practices > Cropland Water Savings

This project is relocating a center pivot system and includes irrigation pipeline installation, water and nutrient management, residue and tillage management and conservation crop rotation.

The Resource Conservation and Rangeland Development Program provides low interest loans to landowners for projects and practices that provide conservation benefits. All loans made to borrowers are repaid to the state with interest.

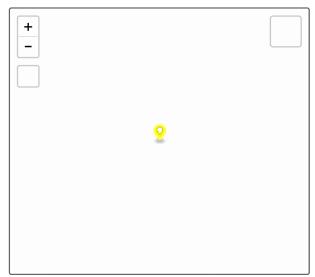

Key Accomplishments

- Irrig. Water Convey. Pipeline H Press.Und. Plast (linear feet): 50.00 lf
- Irrigation System, Sprinkler (acres): 70.00 acres
- Residue Mgmt. No Till/Strip Till/Direct Seed (acres): 70.00 acres

Project Themes

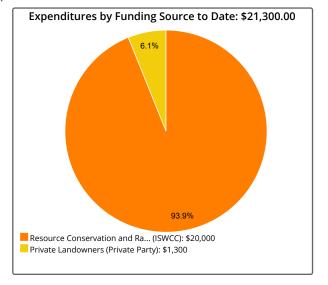

- Agricultural Lands
- Soils
- Water

Tracker tells stories at a broad-brush level. Individual project performance measures and expenditures should not be relied upon for complete and total accuracy and should be confirmed with a project's lead implementer. Project locations subject to confidentiality provisions under state and federal law specify the location of a local conservation district or USDA service center office.
